

Payroll System - Folder Structure

```
Payroll_System/  
├── main.py  
├── login.py  
├── employee.py  
├── payroll.py  
├── attendance.py  
├── prediction.py  
├── database.py  
├── reports.py  
├── requirements.txt  
├── employees.db  
├── salary_slips/  
├── reports/  
├── models/  
└── assets/
```

This folder structure organizes the Desktop AI-Powered Payroll Management System. Each Python file handles a specific module, SQLite stores employee data, and separate folders keep salary slips, reports, AI models, and project assets organized.
